## **Appointment timeline and prescriptions for a EVO Visian ICL procedure**

- Contact lenses can be worn to the surgery center.
- Surgery is done on Tuesdays at Coastal Surgical Center.
- You will be contacted by a nurse from Coastal Surgical prior to your procedure to go over preoperative instructions and to confirm your arrival time.
- You will receive surgery paperwork prior to surgery. **Please bring this paperwork with you to the surgery center and sign where instructed.**
- Plan on being at the surgery center for about 3 hours. You will need a driver. After the procedure you will be expected to take a nap and limit visual activities for the remainder of the day.
- Follow up appointments will be scheduled at 1-day, 1-week, 1- month, 3-months and 1 year.

Prescription eye drops will be used post EVO Visian (these will be called in prior to surgery).

- **1 HOUR BEFORE YOU LEAVE YOUR HOUSE TO GO TO COASTAL SURGICAL CENTER** – use 1 drop of Moxifloxacin and 1 drop of Prednisolone – every 15 minutes – for a total of 4 doses in one hour prior to your procedure.
- **After surgery:**
  - **Moxifloxacin:** 1 drop both eyes, **4 times a day for 7 days.**
  - **Nevenac:** 1 drop, both eyes, **3 time a day until bottle is gone.**
    - If Prolensa is substituted for Nevenac, **Prolensa is 1x a day until gone.**
  - **Prednisolone Acetate:** 1 drop both eyes, **4 times a day for 14 days. Then 2 times a day until bottle is gone.**

*NOTE: Instructions on your prescription bottle may differ than from what is listed above. Please follow OUR instructions and NOT what is on the pharmacy label.*

Arrival time TBD by surgery center (usually around 7am) – they will call you 1 week prior to surgery with a confirmed time:

### **POST OP FOLLOWING EVO VISIAN ICL SURGERY**

1. Eye protection is recommended outdoors(sunglasses) and at bedtime for **1 week**. You will be provided with an eye shield to use for bedtime. Use your own discretion when indoors.
2. No restrictions on bathing, showering, shampooing hair, having a permanent, or drying your hair, BUT **NO swimming** underwater for 2 weeks. **No eye makeup** for one week.
3. **YOU MAY** travel in an airplane, read, and watch T.V.
4. **YOU MAY** bend over to put on shoes, socks, or pick up things (DO NOT LIFT OVER 35lbs.)
5. **YOU MAY** sleep in any position.
6. Your vision may be good enough to drive as soon as the day after surgery. Ask your surgeon if you are not sure. Please be aware that your eye will likely stay dilated for 1 to 2 days after surgery.
7. Please refrain from any vigorous physical activity that might increase your chances of falling and hitting your "operated" eye (such as skiing, skating, tennis, etc.) for **1 WEEK**. It is okay for you to take a walk or play golf as long as you are wearing eye protection. If you are unsure, please ask.
8. It is not unusual to experience watering, a foreign body or a scratchy sensation for the first few weeks after surgery as the eye heals. It will improve with time. You can use lubricant eyedrops like artificial tears. You can use these up to four times a day. Please do not use lubricating drops 30 minutes before or after medicated eyedrops are used.
9. **PLEASE CALL THE OFFICE AS SOON AS POSSIBLE at 603-501-5000** if you experience sudden intense pain or a dramatic change of vision in the "operated" eye. If it is after hours and you experience an emergency, our on-call doctor at 603-964-9192.
